GREENHEART
STUDIO PRODUCTIONS

Greenheart, founded by Carole Fontaine and Fran Smyer-Dubrow, is an artist's studio and performing arts company dedicated to the exploration of feminist aesthetics and traditional arts. By mixing a variety of media — dance, words, visual arts and sign language — the artists promote experiences of deep unity as they give form to the connections between mythology, art, movement and healing. Whether by performances, installations, workshops or ritual consultations, Greenheart celebrates the creative energies of life.
